All commercial shrimp fishermen are required to notify the department within two business days of deploying gear and within two business days after ceasing fishing in a district, or portion of a district, with a GHL. Catcher/Processor and Catcher/Seller vessels must call the Fish and Game area office that manages the district they are fishing and report catch information between 8:00 a.m. and 4:30 p.m. once per week by 12:00 noon each Wednesday, every week they conduct fishing operations.

If warranted, the department may re-open a district 14 days after a closure, with a four-day notice. The estimate for when a district is to close may be highly variable. The redistribution of effort as the season progresses may greatly influence the daily harvest rates in districts.
